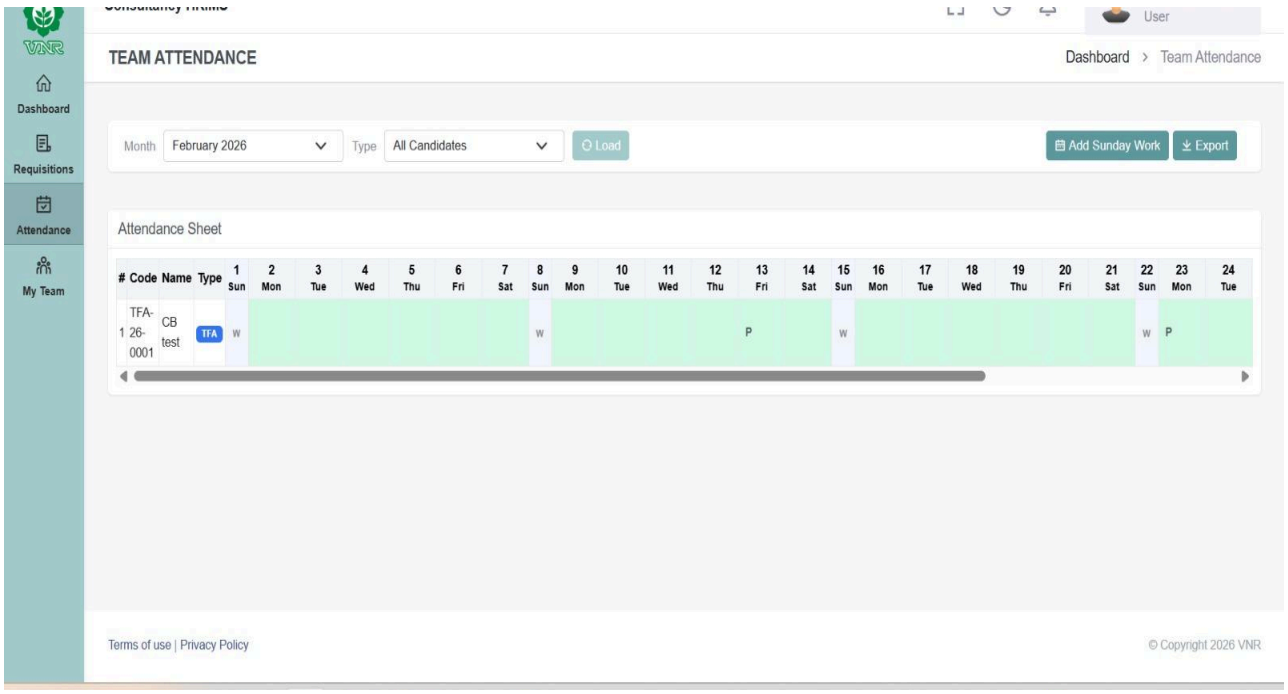
Consultancy HRIMS → Attendance



## Key Rules:

- Attendance can be updated only by the Reporting Manager.
- A 7-day rolling window is provided.
    - Attendance can be marked **only for the last 6 days & the current date.**
- Attendance will be locked automatically after the last day of the month.
- Salary will be processed strictly based on locked attendance.

Reporting Manager must ensure attendance is correctly updated before month-end.

## Example 1 – Same Month

If today's date is **15th February**:

You can update attendance for:

- 9th February
- 10th February
- 11th February
- 12th February
- 13th February
- 14th February
- 15th February

You cannot update 8th February or earlier.

## Example 2 – New Month Scenario

If today's date is **5th March**:

Even though 27th & 28th February fall within the last 7 days, you cannot modify February attendance because:

- February has already ended.
- Attendance is automatically locked on the last day of the month.
- Salary processing is based on locked attendance.

So on 5th March, you can update attendance only for:

- 1st March
- 2nd March
- 3rd March
- 4th March
- 5th March

You cannot modify attendance from February.
